

**Octorara Area School District  
 Standards Based Report Card Rubrics  
 2018-2019  
 5th Grade Math**

Standards-based grading aligns grading with the PA Core Standards. The report card accurately communicates achievement of learning targets to students, parents, and educators. Our report card provides specific information about the level of proficiency on the learning targets that are taught each trimester.

By the end of the year, students are expected to meet each grade-level standard (M). Students not meeting standards will receive instructional supports to achieve mastery for specific content and skills.

The purpose of these rubrics is to assist students, parents, and teachers in understanding what the specific learning expectations are for students to be considered at grade-level mastery in each skill area. These learning expectations may grow or increase as the school year progresses and more content/skills are introduced.

SBRC Descriptor	M	SP	LP	NA
Means:	Consistently meets grade level expectations/standards	Demonstrates steady progress toward meeting grade level expectations/standards	Demonstrates limited progress toward meeting grade level expectations/standards	Not assessed at this time
<b>Numbers and Operations- Base Ten</b>				
Applies place value concepts to show an understanding of operations and rounding as they pertain to whole numbers and decimals	Consistently identifies and writes decimals to the thousandths.  Consistently compares, orders and rounds whole numbers to 9 digits	Inconsistently identifies and writes decimals to the tenths  Consistently compare, orders, and rounds whole numbers to 6 digits	Limited ability to define and identify decimals  Limited ability to compare, order and round whole numbers  Limited ability to define,	Not assessed at this time

	Consistently compares and orders decimals to the thousands	Inconsistently compares, orders, and rounds decimals to the tenths or with different number of significant digits (ex. 2.3 vs. 2.30 or 4.7 vs. 4.07)	compare, and order decimals	
Demonstrates understanding of operations with whole numbers and performs operations including decimals (to hundredth place)	<p>Consistently adds and subtracts whole numbers, decimals to the hundredths</p> <p>Compares whole numbers, decimals to the hundredths</p> <p>Multiplies three digit by three digit numbers accurately, including decimals to the hundredths</p> <p>Divides by two digit whole numbers with and without remainders accurately</p>	<p>Consistently adds and subtracts whole numbers</p> <p>Consistently compares whole numbers accurately</p> <p>Multiplies one digit and two digit whole numbers accurately</p>	<p>Limited ability to add and subtract whole numbers</p> <p>Limited ability to compare whole numbers accurately</p> <p>Multiplies one digit whole numbers accurately</p>	Not assessed at this time
<b>Numbers and Operations-Fractions</b>				
Solves addition problems involving fractions	NA	NA	NA	Not assessed at this time
Solves subtraction problems involving fractions	NA	NA	NA	Not assessed at this time

Solves multiplication problems involving fractions and whole numbers	NA	NA	NA	Not assessed at this time
Solves division problems involving fractions and whole numbers	NA	NA	NA	Not assessed at this time
<b>Operations and Algebraic Thinking</b>				
Shows basic fact mastery	Independently and consistently calculates basic facts efficiently, accurately and flexibly	Inconsistent calculates basic facts efficiently, accurately and flexibly. May be independent with one or more of the four operations, but not all.	Dependent upon concrete strategies or tools such as multiplication charts and/or calculator to calculate facts	Not assessed at this time
Interprets and evaluates numerical expressions using order of operations	Independently evaluates expressions using order of operations	Consistently evaluates expressions with four operations  Inconsistently evaluates expressions when parentheses are included	Limited ability to evaluate expressions using order of operations	Not assessed at this time
Analyzes patterns and relationships	NA	NA	NA	Not assessed at this time
<b>Geometry</b>				
Classifies two-dimensional figures into categories based on an understanding of their	Consistently identifies, sorts, classifies, and compares the properties of 2-D shapes	Consistently identifies 2-D shapes, but inconsistently sorts, classifies, and compares the properties of them.	Limited ability to identify the various 2-D figures.	Not assessed at this time

properties				
Graphs points in the first quadrant on the coordinate plane and interprets these points when solving real-world mathematical problems	Consistently draws axes. Consistently identifies, draws, and labels points in quadrant 1.  Plots points using whole numbers, fractions and decimals.	Consistently draws axes. Consistently identifies, draws, and labels some, points in quadrant 1 but not all  Plots points using whole numbers only	Limited ability to draw axes or identify quadrant 1	Not assessed at this time
<b>Measurement and Data</b>				
Solves problems using conversions within a given measurement system	NA	NA	NA	Not assessed at this time
Solves problems involving computation of fractions using information provided in a line plot	NA	NA	NA	Not assessed at this time
Applies concepts of volume to solve problems and relate volume to multiplication and addition	NA	NA	NA	Not assessed at this time
