## Octorara Area School District Standards Based Report Card Rubrics 2018-2019 <br> Math

Standards-based grading aligns grading with the PA Core Standards. The report card accurately communicates achievement of learning targets to students, parents, and educators. Our report card provides specific information about the level of proficiency on the learning targets that are taught each trimester.

By the end of the year, students are expected to meet each grade-level standard $(M)$. Students not meeting standards will receive instructional supports to achieve mastery for specific content and skills.

The purpose of these rubrics is to assist students, parents, and teachers in understanding what the specific learning expectations are for students to be considered at grade-level mastery in each skill area. These learning expectations may grow or increase as the school year progresses and more content/skills are introduced.

| SBRC Descriptor | M | SP | LP | NA |
| :--- | :--- | :--- | :--- | :--- |
| Means: | Consistently meets grade <br> level <br> expectations/standards | Demonstrates steady <br> progress toward meeting <br> grade level <br> expectations/standards | Demonstrates limited <br> progress toward meeting <br> grade level <br> expectations/standards | Not assessed at this time |
| Numbers and <br> Operations- Base Ten |  |  |  |  |
| Applies place value <br> concepts to show an <br> understanding of <br> operations and rounding <br> as they pertain to whole <br> numbers and decimals | Consistently identifies and writes <br> decimals to the thousandths. <br> Consistently compares, orders <br> and rounds whole numbers to 9 <br> digits <br> Consistently compares and <br> orders decimals to the <br> thousands | Inconsistently identifies and writes <br> decimals to the tenths <br> Consistently compare, orders, and <br> rounds whole numbers to 6 digits | Limited ability to define and identify <br> Inconsistently compares, orders, <br> Limd rounds decimals to the tenths <br> or with different number of ability to compare, order <br> significant digits (ex. 2.3 vs. 2.30 <br> or 4.7 vs. 4.07) | Not assessed at this time <br> and orded ability to define, compare, <br> and order decimals |

Grade 5 SBGR

## Trimester 3

| Demonstrates understanding of operations with whole numbers and performs operations including decimals (to hundredth place) | Consistently adds and subtracts whole numbers, decimals to the hundredths <br> Compares whole numbers, decimals to the hundredths <br> Multiplies three digit by three digit numbers accurately, including decimals to hundredths <br> Divides by two digit whole numbers with and without remainders accurately. Dividends may include decimals to hundredths | Consistently adds and subtracts whole numbers <br> Consistently compares whole numbers accurately <br> Multiplies one digit and two digit whole numbers accurately <br> Divides one digit whole numbers accurately with and without remainders | Limited ability to add and subtract whole numbers <br> Limited ability to compare whole numbers accurately <br> Multiplies one digit whole numbers accurately <br> Divides one digit whole numbers accurately without remainders | Not assessed at this time |
| :---: | :---: | :---: | :---: | :---: |
| Numbers and Operations-Fractions |  |  |  |  |
| Solves addition problems involving fractions | Consistently adds fractions with like/unlike denominators | Consistently adds fractions with like denominators | Limited ability to add fractions with like denominators |  |
| Solves subtraction problems involving fractions | Consistently subtracts fractions with like/unlike denominators | Consistently subtract s fractions with like denominators | Limited ability to subtract fractions with like denominators |  |
| Solves multiplication problems involving fractions and whole numbers | Consistently multiplies fractions with like/unlike denominators | Consistently multiplies fractions with like denominators | Limited ability to multiply fractions with like denominators |  |
| Solves division problems involving fractions and whole numbers | Consistently divides fractions with like/unlike denominators | Consistently divides fractions with like denominators | Limited ability to divide fractions with like denominators |  |
| Operations and Algebraic Thinking |  |  |  |  |

Rev. 6.5.18

## Grade 5 SBGR

## Trimester 3

| Shows basic fact mastery | Independently and consistently calculates basic facts efficiently, accurately and flexibly | Inconsistent calculates basic facts efficiently, accurately and flexibly. May be independent with one or more of the four operations, but not all. | Dependent upon concrete strategies or tools such as multiplication charts and/or calculator to calculate facts | Not assessed at this time |
| :---: | :---: | :---: | :---: | :---: |
| Interprets and evaluates numerical expressions using order of operations | Independently evaluates expressions using order of operations | Consistently evaluates expressions with four operations <br> Inconsistently evaluates expressions when parentheses are included | Limited ability to evaluate expressions using order of operations | Not assessed at this time |
| Analyzes patterns and relationships | Identifies, writes and uses algebraic number sentences to represent patterns | Identifies, writes and uses a more complex number sentence to represent a numerical pattern, such as one that uses parentheses or exponents | Identifies, writes and uses a number sentence to represent a numerical pattern using the four operations | Not assessed at this time |
| Geometry |  |  |  |  |
| Classifies two-dimensional figures into categories based on an understanding of their properties | Consistently identifies, sorts, classifies, and compares the properties of 2-D shapes | Consistently identifies 2-D shapes, but inconsistently sorts, classifies, and compares the properties of them. | Limited ability to identify the various 2-D figures. |  |
| Graphs points in the first quadrant on the coordinate plane and interprets these points when solving real-world mathematical problems | Consistently draws axes. Consistently identifies, draws, and labels points in quadrant 1. <br> Plots points using whole numbers, fractions and decimals. | Consistently draws axes. <br> Consistently identifies, draws, and labels some, points in quadrant 1 but not all <br> Plots points using whole numbers only | Limited ability to draw axes or identify quadrant 1 |  |
| Measurement and Data |  |  |  |  |
| Solves problems using conversions within a given measurement system | Consistently measures to the nearest $1 / 8$ inch and centimeter <br> Can convert, add, and subtract consistently in customary units | Consistently measures to the nearest $1 / 2$ inch and centimeter <br> Can convert, add, subtract consistently in customary and | Consistently measures to the nearest inch and centimeter <br> Limited ability to convert, add and subtract linear measurements |  |

Rev. 6.5.18

Grade 5 SBGR
Trimester 3

|  | and metric units, using decimals <br> and fractions for liner <br> measurements | metric units (whole numbers only) <br> in linear measurements |  |  |
| :--- | :--- | :--- | :--- | :--- |
| Solves problems <br> involving computation of <br> fractions using <br> information provided in <br> a line plot | Solves problems involving <br> computation of fractions using <br> information provided in a line <br> plot $(1 / 2,1 / 4,1 / s)$ | Creates a line plot using fractions, <br> inability to solve problems related <br> to it | Inability to create a line plot <br> involving fractions |  |
| Applies concepts of <br> volume to solve <br> problems and relate <br> volume to multiplication <br> and addition | Consistently solves problems <br> related to volume | Inconsistently solves problems <br> related to volume | Limited understanding of volume |  |
