Standards Based Report Card Rubrics
2018-2019
English Language Arts (ELA)**

Standards-based grading aligns grading with the PA Core Standards. The report card accurately communicates achievement of learning targets to students, parents, and educators. Our report card provides specific information about the level of proficiency on the learning targets that are taught each trimester.

In ELA, research indicates a student's background knowledge and prior experience may affect reading and/or vocabulary levels. Students may read/spell below, on, and/or above level depending on the genre and content of the text or previous work knowledge exposure. SBRC mastery scores (M) reflect the range of text complexity students may experience due to these influential factors. Developing readers may score below benchmark but are demonstrating progress to grade level standards (SP) depending on text type, genre, and background knowledge.

By the end of the year, students are expected to meet each grade-level standard (M). Students not meeting standards will receive instructional supports to achieve mastery for specific content and skills.

The purpose of these rubrics is to assist students, parents, and teachers in understanding what the specific learning expectations are for students to be considered at grade-level mastery in each skill area. These learning expectations may grow or increase as the school year progresses and more content/skills are introduced.
